Red Devil Groove Box X64 (Final 2022)

Music Box is the best free drum machine on the market, with over 700 free samples! It has over 300 drum kits and MIDI-compatible with the bundled software. You can tweak, and experiment with more than 60 different features with MIDI, slider or arpeggiator, sequencer, and even see the results in real time. Whether you're looking for a more modern piano or a groove-laden electric piano, or even a crunking party synth; Music Box has it all. And it's got everything in the free version.

Samplification: The free version contains more than 300 samples from the full version of Music Box, with some 2,000 drum patterns, plus a 1,200-plus song library of loops and one-shots. **Discovering new sounds:** Music Box has many different features. One is that you can search for a sound in the main list, click the '+' button to "box" the sound, then you can set its parameters. For instance, you can tweak the stereo width, drive, and other features, to get a better sound. **Search by category:** There are multiple categories. Use the tabs to see the different types of sounds, plus browse the lists. You can also listen to samples in different categories. **Arpeggiator:** Most sounds have an arpeggiator, giving you the ability to step through the samples. **Sequencer:** Similar to a drum machine, Music Box will let you create sequences for any song, play it back, and step through it. **Sequence editing:** One of the most powerful features is the ability to edit your sequences. You can make the sequence loop, or play it on a loop. **Sequencer function:** Music Box has a sequencer. This helps you create sequences and combine sounds together. It can be very versatile. **Spinning Sound:** Your samples can be played through the spin button, like real drums. **Automatic Saving:** Music Box automatically saves your sequences, which makes it easy to create and save. **Output:** Music Box has a built-in mixer, plus the ability to export your sequences to MIDI and WAV formats. **MIDI controller:** You can add a MIDI controller on your computer to control Music Box. **Reviews** No user reviews are available yet. **Write Your Review** Write your review and get \$10* Voucher
